Cascade Bicycle Club (Cascade), is the nation's largest statewide bicycle nonprofit with more than 10,000 members, and 50 years of history, serving bike riders of all ages and abilities throughout Washington state. Cascade teaches the joys of bicycling, advocates for safe places to ride, and produces community rides and events. Cascade’s signature programs include the Seattle-to-Portland Ride, advocacy for connected trail networks and on-street bike networks in Seattle and across the Puget Sound region, the Advocacy Leadership Institute, Free Group Rides, Adult Maintenance and Riding Classes, Let’s Go, and the Major Taylor Project.

Cascade builds community and transforms lives by connecting and supporting members, volunteers, and the larger community to bicycling and all of its benefits. In 2020, in response to the pandemic and emerging community needs, Cascade expanded its programs to include food delivery for community service organizations.

Washington Bikes (WA Bikes) grows bicycling across the state of Washington every day. WA Bikes advocates for bicyclists’ rights, endorses political candidates, and holds officials accountable at every level of government, working with them to shape the policies that will make bicycling a safe, accessible form of transportation, travel, and recreation. WA Bikes’ efforts increase funding to build and maintain bicycle facilities, provide tools for local advocates to improve their communities, and promote the health, safety, and economic benefits of bicycling. WA Bikes’ work and that of many partner organizations means more people biking all across Washington, the #1 Bicycle Friendly State in America since 2008 according to the League of American Bicyclists.

Cascade Bicycle Club and WA Bikes value:

- **Equity** - We lead with a racial equity lens to eliminate inequities in community health outcomes and in mobility and transportation access. Bicycles are the primary tool for liberation.

- **Environmental Sustainability** - The bicycle is a tool to disrupt systems that contribute to the climate crisis. We make decisions based on environmental impact.

- **Community** - We create opportunities for people to come together by removing barriers and fostering a sense of belonging. Bicycles are an integral part of creating connected, equitable and thriving communities.

- **Safety** - Safety is a right; we champion spaces that foster physical and emotional wellbeing.

- **Collaboration** - We share power, resources, and knowledge as a means to enrich lives and form mutually beneficial partnerships. We celebrate the existing strengths of our partners and participants and seek to be an accessible asset for others.
